| Project Name  | ShopEZ – Full Stack MERN E-Commerce Platform |
| Maximum Marks | 2 Marks                                      |

**Proposed Solution Template:**

Project team shall fill the following information in the proposed solution template.

| S.No. | Parameter                                | Description                                                                                                                                                                |
|-------|------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.    | Problem Statement (Problem to be solved) | Existing e-commerce websites are complex, difficult to manage, and provide a poor user experience.                                                                         |
| 2.    | Idea / Solution description              | Develop <b>ShopEZ</b> , a MERN-based e-commerce platform with secure authentication, product management, shopping cart, wishlist, online payments, and an admin dashboard. |
| 3.    | Novelty / Uniqueness                     | Simple UI, centralized admin dashboard, fast product search, secure checkout, and responsive design.                                                                       |
| 4.    | Social Impact / Customer Satisfaction    | Provides a faster, secure, and user-friendly shopping experience while simplifying store management.                                                                       |
| 5.    | Business Model (Revenue Model)           | Revenue through product sales, promotional banners, featured products, and discount campaigns.                                                                             |
| 6.    | Scalability of the Solution              | Easily scalable using the MERN stack with future support for AI Shopping Assistant, mobile app, and advanced analytics.                                                    |
